Dignity

Thoughtful Evolution

FORM follows

The Medcomp ProFuse® CT Ports have been helping practitioners to deliver the highest level of diagnosis and treatment to patients since their inception. Medcomp is now introducing the *Dignity* line of power injectable ports. The *Dignity* Ports are constructed of a MRI-compatible, lightweight engineering plastic that allows for up to 5cc/sec power injection of contrast media for Contrast-Enhanced Computed Tomography (CECT) scans. The ergonomically designed *Dignity* Ports are available in intermediate and low profile sizes to provide increased patient comfort and ease of insertion.

TAPERED TAIL: Aids in the tissue dissection process, creating a tighter port pocket which prevents flipping.

REDUCED WIDTH: Minimizes incision length during implantation and increases the septum to body ratio to promote ease of access.

CONCAVE SIDES: Allow for controlled, accurate port assembly and placement.

FUNCTION...

SMOOTH CONTOURS:

The rounded port body increases patient comfort.

RAISED RIM: Provides a clear tactile response during palpation, assisting in septum location.

CLEAR LOCKING

MECHANISM: Ensures visual and tactile confirmations of a secure port-catheter connection.

RADIOPAQUE INK:

"CT" printing can be visualized under x-ray to provide confirmation of power injectability.

LOW PROFILE: Multiple port and catheter sizes make it easier to select a configuration suitable to a patient's body type resulting in improved cosmesis, while still maintaining the highest level of performance.

ORDERING INFORMATION

STANDARD Dignity CT Implantable Port

(5/BOX)	Attachable Catheter	Pre-Attached Catheter
6.6FR Triniflex™ Catheter	MRCTI66001	MRCTI66801
8.0FR Triniflex™ Catheter	MRCTI80001	MRCTI80801
9.6FR Silicone Catheter	MRCTI96001	MRCTI96801

LOW PROFILE Dignity CT Implantable Port

(5/BOX)	Attachable Catheter	Pre-Attached Catheter
6.6FR Triniflex™ Catheter	MRCTI66041	MRCTI66841
8.0FR Triniflex™ Catheter	MRCTI80041	MRCTI80841

Sets Contain:

- | | |
|---|------------------------------------|
| (1) CT Implantable Port | (1) Tunneler |
| (1) Catheter | (1) 22Ga. Huber Needle |
| (2) Catheter Locks | (1) Blunt Tip Needle |
| (1) Scalpel | (1) Valved Peelable Introducer IFU |
| (1) 18Ga. Introducer Needle | (1) Port IFU |
| (1) Vein Pick | (1) Patient Information Pack |
| (1) .038" x 70cm "J" Marked Guidewire with Advancer | (1) Patient Chart Sticker |
| (1) 10cc Syringe | |
| (1) Valved Peelable Introducer | |
